Coming January 2025!

Visual PFASTM

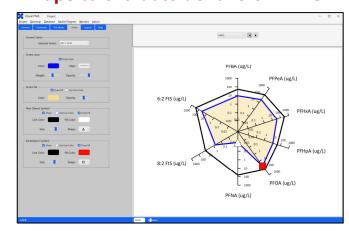

Improved Site Characterization and Forensic Analysis

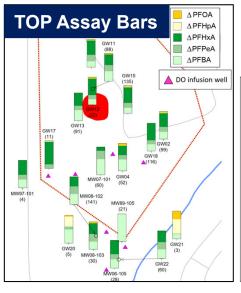

Prepare powerful visual aids in minutes!

Why choose Visual PFAS™?

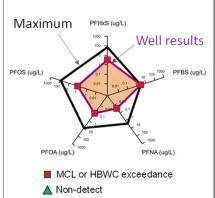

- 1. Improve conceptual site models
- 2. Compare site wells to background
- 3. Easily communicate with broad audiences
- 4. PFAS source differentiation with ratios
- 5. Evaluate remedy performance
- Save time by evaluating trends and exceedances for 5 to 10 PFAS on one map

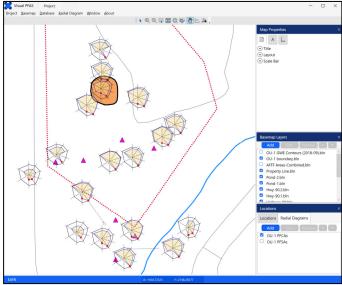

Easily prepare radial diagram and bar maps to evaluate dozens of PFAS

Evaluate precursor transformations and PFAA attenuation

Visual PFAS™ also has unique features for evaluating:

- Attenuation of chlorinated solvents, hydrocarbons, metals, and radionuclides
- · Redox zone delineation
